Install a Bathroom Anywhere It's Needed!

Adding a quality bathroom virtually anywhere in the home — from the basement to the attic and even the garage — is quick, easy and cost-efficient with a SANIFLO MACERATING PLUMBING SYSTEM.

With 50 years of experience and more than five million units sold worldwide, Saniflo is the leader in macerating technology today. In fact, it remains the only manufacturer of its kind in North America, offering a complete line of macerating systems.

Whenever it is impractical or impossible to install conventional plumbing fixtures, Saniflo is the perfect answer to creating a complete bathroom or powder room. With our above-floor systems, there is no need for expensive renovations and no digging through floors. Saniflo installs atop any finished surface, and all plumbing is completed in small-diameter pipe.

A commercial-grade grinder is also available for installations that demand the performance of a public toilet facility, such as in motels, restaurants, factories and alike.

Learn more about Saniflo at www.saniflo.com. Thank you.
